**English as a Global Language** David Crystal 2012-03-29 David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

**How to Build Max-Performance Hemi Engines** Richard Nedbal 2009 How to Build Max-Performance Chrysler Hemi Engines details how to extract even more horsepower out of these incredible engines. All the block options from street versus race, new to old, iron versus aluminum are presented. Full detailed coverage on the reciprocating assembly is also included. Heads play an essential role in flowing fuel and producing maximum horsepower, and therefore receive special treatment. Author Richard Nedbal explores major head types, rocker arm systems, head machining and prep, valves, springs, seats, porting quench control and much more. All the camshaft considerations are discussed as well, so you can select the best specification for your engine build. All the induction options are covered, including EFI. Aftermarket ignitions systems, high-performance oiling systems and cooling systems are also examined. How to install and set up power adders such as nitrous oxide, superchargers, and turbochargers is also examined in detail.
